Subject: Re: Does 50 ft. from buildings restriction apply?: Rodent control in Sewers  
Date: 02/01/2012 08:02 AM

---

Hi Rose - you're correct that sewer placements are not required to be within 50ft from buildings. As an FYI (and you might already know this....), ASPCRO and NPMA are working with us to revise this restriction. It looks like the distance will be increased from 50ft to 100ft and "buildings" will be changed to "structures" (more placement sites will be allowed). This will probably be approved soon, but I'm not sure when you'll be seeing it on labels. Hope all is well....

john

Subject: Does 50 ft. from buildings restriction apply?: Rodent control in Sewers

---

I just want to confirm that all of this sewer use is not bound by the 50 ft. from buildings restriction.

See example labels.

Thank you.

Rose
